A Tough Loss

Tori Robinson details the ACS Cobham vs. ASP game

A Close Game

The Cougars went into this game with some extra confidence, and a little more experience hoping to turn their last win, into a streak. The Cobham Cougars pulled ahead in the beginning with Captain David Anderle serving numerous times in a row. ASP started to catch up but an impressive spike from Adam Tassabehji stopped them from gaining any more points until the score was 12 – 8, in Cobham’s favor. Skillfully timed blocks from them continuously earned them points. With the score 21 – 13, victory was in sight for the first set of the game. Riki Yanaga’s sets were incredible; his performance enhanced the game play. The Cougars won the first set 25 – 14, determined to seal the game with victory in the 2nd set. The beginning of the 2nd set was close, with only a few points difference between the two teams. After a few rallies and hits between the two

teams, the Cougars were behind by two points. An intimidating spike to back court from Cory Langrenney gained the Cougars a point, but their enthusiasm was short lived after Tasis regained the serve. Even with some strategic double blocking from the Cougars, the 2nd set didn’t seem to be going their way, with the

“ Even with some strategic double blocking from the Cougars, the 2nd set didn’t seem to be going their way...”

Cougars trailing by 5 points. An unexpected tip from Cory Langrenney brought them back into the game, and took the score to 19 – 21, but ASP quickly recovered winning the set. The Cougars lost the set 21 – 25, but didn’t lose focus and were more determined then ever to win the 3rd set. The intense set began with the Cobham Cougars scoring the first point. ASP started off with a small

lead of 3-1, but lack of communication within the team caused them to miss an easy pass. Slowly the game continued and tension filled the gym, as both teams tried to fight for a final victory of the day. After the two teams switched sides, ASP won first point, and continued on until the score was 10-6.. A strategic tip from Alex

Kaars Sijpesteijn put the Cougars back in the game, trailing by a mere 1 point. Soon enough the score was 14 – 12 to ASP, Cobham couldn’t afford to lose another point. Sadly, confusion on Cobham’s side of the court caused them to lose the game. I know that this loss will not stop the Cobham Cougars from winning tomorrow and making the home crowd cheer!

Jason Klimentos

CAC Screaming Eagles

Writer: Myles Hollenberg

Jason Klimentos, a senior this year, plays for The Cairo American College Screaming Eagles. He plays outside hitter, a position reserved for people who are strong, tall, and have quick reactions. Jason seemed confident about how his team will play against more skilled opponents, later in the tournament. So far in the tournament Cairo has two wins, one against St. John's, and later that day Jason led Cairo to their second win against ASP. Cairo then lost to TASIS in a close two to one game. Jason believes, like so many other players in this tournament, that Frankfurt will be their biggest rivals this ISST. This is because as Jason informed me, "We beat Frankfurt at last year's ISST, so they will want to beat us even more this year." Jason believes that his team has great chemistry and communication.

The toughest team that Cairo had to face this year was the American University of

Cairo; this was the hardest match of the year because the American University of Cairo is experienced and fierce. They also believed this was the best game, because they worked really well together and it pushed them to bring their game to a whole new level. Jason hopes his team will continue the tradition of bringing home gold this year. If they are able to continue this winning streak, and win first in this ISST, they will have a huge celebration and only come back stronger next year. Although Jason believes that his team has made some errors in this tournament, he does also believe they will persevere and play to the standard that he knows they can achieve.
