ACS Cobham has a dedicated team within the High School that are purely focused on ensuring our students onward pathway is a tailored to each students needs.

This has led to students moving on from ACS Cobham to a wide and varied University pathway and vocational further education.

COLLEGE COUNSELLING PROGRAMME

At ACS Cobham, we take great pride in developing effective, confident and caring individuals who leave ACS as well rounded global citizens ready to act, lead and change the world.

Our university and college counsellors work with each student individually to offer bespoke, expert provision to meet a student's needs by giving value to their individual strengths. From Grade 10 (aged 15/16) onwards the students begin to explore opportunities, are advised on subject selection and are guided through the application process by their nominated counsellor. The counsellors maximise student opportunities providing comprehensive, honest information that will allow students and families to make informed decisions and find the "best fit" university or pathway.

Our counsellors have a wealth of experience working with a breadth of universities and colleges around the world navigating challenging admission requirements and advocating for students. Each year students attend world-class colleges and universities in the UK, the US and around the world, with the majority going to the UK and the US. Counsellors support students in the following ways:

- Career research
- Personal statement preparation
- Application process support
- Queries on funding and scholarships
- One-to-one sessions with students (and parents if requested)
- University and College visits and fairs
- Skills workshops

HOW DOES THIS DIFFER TO OTHER SCHOOLS?

The team's familiarity with a breadth of global destinations is one of the key differences. Each year, our students apply to a whole range of countries: UK, US, Japan, Netherlands, Cyprus, Italy, Austria, Spain etc.

This keeps our knowledge and expertise in these destinations up to date, and we are connected to a network of admissions officers across global universities. Additionally, we have a broad understanding of different qualifications and educational experiences, outside of the standard GCSE/A-Level curriculum.

CLASS OF 2023 UNIVERSITY COURSES

Accounting and Finance
 Architecture
 Biomedical and Healthcare Engineering
 Business & Economics
 Chemistry
 Cognitive Neuroscience and Psychology
 Contemporary Media Cultures
 Criminology and Sociology
 Ecological and Environmental Sciences

 Physics
 Physics with Theoretical Physics
 Plant Sciences
 Psychology
 War Studies and History

CLASS OF 2023 - A SMALL SELECTION OF ONWARD PATHWAYS

UK UNIVERSITIES

Oxford University

Hannah is attending the University of Oxford, to study Law. Hannah successfully gained her place with her AP qualifications, demonstrating that neither IB nor AP are more advantageous than the other.

University of Dundee

Katelyn will be attending University of Dundee to study Environmental Sustainability. She will be able to combine her love of horticulture with environmental studies at degree level.

Durham University

Ela will be studying Law at Durham University.

UCFB, University Campus of Football Business

Hani will study Football Business & Marketing at UCFB, a niche and specialist institution.

Exeter University

Stine will be studying Psychology at the University of Exeter

University of Bath

Kseniia is going to University of Bath to study Business at the undergraduate level, with a work placement.

Queen Mary University of London

Felix holds an offer to study International Relations with Business Management.

Norwich University

Caitlin will be going to a specialised niche Arts university to follow her passion with a BA (hons) Fine Arts at Norwich, University of The Arts. A wonderful setting for the budding artist!

USA UNIVERSITIES

NYU Stern School of Business, New York

Alberto will be attending the highly selective NYU Stern School of Business. New York University is highly selective, yet getting into Stern is even more competitive.

Loyola Marymount University

Shea will be attending the Loyola Marymount University, a well fitted university for the passionate performing arts student.

Harvard University

Henry will attend Harvard University and followed the AP Programme to gain access to this prestigious University.

Northeastern University

William will be studying computer science at this highly selective university with a 7% admission rate, with excellent co-op program.

University of South Carolina

Emerson will be studying computer science at the University of South Carolina. This is noteworthy as he had managed to advocate for himself so well in the application process that he has gained a full financial assistance for the duration of his studies here.

Boston University

Anthony will be attending Boston University, a highly selective US University. Anthony applied via Early Decision.

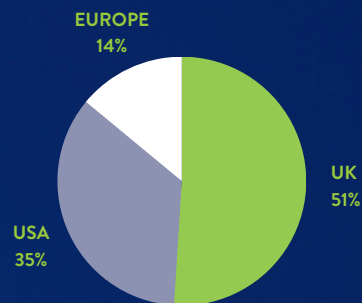

Embry-Riddle Aeronautical University

Ruben will be continuing to develop his journey to be a pilot, while gaining his pilot licence and studying in one of the best flight schools in the world – Embry-Riddle Aeronautical University, Daytona Beach, in Florida, US.

University of Virginia

Geselle is set to study her undergraduate degree in the highly selective US university of UV. The university were impressed with the engagement she has given to the community, in whichever one she lives within.
