*I love the extra-curricular activities at ACS Cobham and I am particularly enjoying being part of the Duke of Edinburgh award where I am currently competing for DofE Gold! The expeditions have been fascinating and require huge perseverance and preparation, which are qualities you need for life. I have learnt a lot through this process.*

**Abby, Hong Kong**

*What I truly love about ACS Cobham is how everyone is from a different country. When everyone is together in the common room you hear all the different languages and cultures. All the students bring different opinions and viewpoints to the boarding house including their cooking skills which is most appreciated!*

**Cristina, Spain**

*The benefits are all the benefits that you are willing to take as everything is available for you!*

**Adele, Mexico**

*Being a boarder is like being in a home away from home, everyone is so kind here and you get to meet people from all over the world. You also get to have some responsibility which prepares you for later in life!*

**Cihat, Turkey**

*The facilities here are amazing, in twelfth grade you get your own room which is fantastic. I love having my own space but being really well supported by the house parents.*

**Madalena, Portugal**

*The boarding houses are very different in their own ways but what stays constant is the support from your peers and house parents. The amount of support you have is incredible, you have residential tutors as well as student tutors which is so beneficial.*

**William, New York,**

*One of the best parts of being at ACS is the community, there is never a dull moment, and you can really unwind afterschool. There is always something to do or someone to talk to.*
